

Spring 2009

Dear Friends,

I am so excited to share information with you about a place that is very special to me, Alford Lake Camp. It is a very special camp to me and I think it would be a good fit for your family. There are a lot of wonderful things for children to do during their summer break, but this camp is special, and I want to tell you why.

Established in 1907, ALC is one of the oldest girls' camps in the world. ALC provides adventure and fun for girls ages eight to fifteen from all over the country and world, in a friendly atmosphere of simple outdoor living.

It is a relatively small camp where the Directors maintain a close connection with Campers, Staff and Families, thus creating a warm, supportive community.

This program structure is quite different than most places and one that proves to be outstanding to our camper's growth and development! The AWESOME aspect of ALC's camper program is that it gives the camper the opportunity to make choices. All campers have the chance to experience every one of our activities regularly. The GREAT thing about this is that girls with all different kinds of interests - from the athlete, to the artist, to the wilderness adventurer - can feel at home with their strengths while challenging themselves to experiment with those things that are new to them.

There are also ALC's Global Challenge Trips. Each trip carries its own flavor of adventure, action, character building, leadership, challenge, community service and self-discovery - and of course, fun!

Please take a minute to learn more about the camp at www.alfordlakecamp.com. I think you might just discover a new place for your family to connect with. If you have any questions that I can answer for you, please don't hesitate to be in touch with the camp or me.

Thank you!
